# Elegance meets dynamic performance.

## [ FULL DESCRIPTION ]

### DRUMFIRE D-2

This speaker is the top unit of the Drumfire, that will give you quite a punch, even on its own. Delivering pure HiFi acoustics, with deep, controlled bass and crispy highs. The D-2 is the new, improved version of D-1. It offers AirPlay 2, Google Cast and Spotify Connect, and an even greater sound than its predecessor.

D-2 is designed to fit elegantly into any home. Wrapped in faux leather, details in solid aluminium and a sturdy wooden cabinet. The multiroom function allows you to play the same music throughout your house. Group and play, set to left/right for stereo pairs. Play all together. Or not. You choose. Multiroom sound and multi person usage.

The D-2 can be connected to the Drumfire subwoofer or any other woofer via cable or wireless if it's a multiroom subwoofer. When you connect a subwoofer, the crossover in the D-2 will change, so that the subwoofer takes care of the bass. This way you can play much louder.

Streaming services available: Amazon Music, Deezer, iHeart Radio, Napster, Qobuz, QQ Music, Spotify, Tidal, Tuneln, VTuner and many more via Google Cast and AirPlay 2.

### TOP 3 FEATURES:

Compatible with AirPlay 2, Google Cast, Spotify Connect and Audio Pro Multiroom system.

6 preset buttons will give you easy access to playlists and radio stations. No need to use the app, just push and play.

Wireless multiroom speaker that lets you play the same track on all speakers in your house, or different tunes in different rooms, you decide.
