Colours: Ash Black, Silk White, Dusk Grey

## ELEGANCE MEETS DYNAMIC PERFORMANCE

[ FULL DESCRIPTION ]

### D-1

This speaker is the top unit of the Drumfire, that will give you quite a punch, even on its own. Delivering pure HiFi acoustics, with deep, controlled bass and crispy highs.

D-1 is designed to fit elegantly into any home. Wrapped in faux leather, details in solid aluminium and a sturdy wooden cabinet.

The D-1 can be connected to the Drumfire subwoofer or any other woofer via cable or wireless if it's a multiroom subwoofer. When you connect a subwoofer, the crossover in the D1 will change, so that the subwoofer takes care of the bass. This way you can play much louder.

### MULTIROOM

Multiroom sound and multi person usage. Group and play, set to left/right for stereo pairs. Play all together. Or not. You choose.

### APP CONTROL

It's easy to use. We know everybody says this, but this app truly is. From lightning fast setup to using, it's all smooth sailing.

### TOP 3 FEATURES:

#### MULTIROOM HIFI

Play one track on all speakers, or let everybody in the house play their personal favourite on their own speaker.

#### EASY TO USE PRESETS

Store playlists and radio stations to convenient buttons on the speaker. No need to use the app, just push and play.

#### PLAY ANYTHING

Wireless connectivity with multiroom, Airplay, Spotify Connect and Bluetooth. Cabled possibilities with both RCA and 3.5 mm inputs. You can even connect your turntable and play wirelessly to more speakers.
