

Let the music enchant you! The new **Enchant series** from **harman/kardon** is here

Harman/Kardon presents the revamped Enchant series with four new additions for a complete home system that combines state-of-the-art sound, elegant design, and a commitment to sustainability.

With the **Enchant 1100** and **Enchant 900** soundbars, the **Enchant speaker**, and the **Enchant Sub**, this series is designed to deliver an immersive 3D cinema experience tailored to any home.

At the heart of the new series are the Enchant 1100 and Enchant 900 soundbars, which feature **MultiBeam** and **Dolby Atmos** technology for a captivating audio experience. The Enchant 1100 goes one step further with **DTS:X support**, offering an extra level of enjoyment for home theater enthusiasts. With 11 drivers in the Enchant 1100 and nine in the Enchant 900, these soundbars deliver room-filling **3D sound**, enhanced by up-firing channels for truly cinematic Dolby Atmos effects.

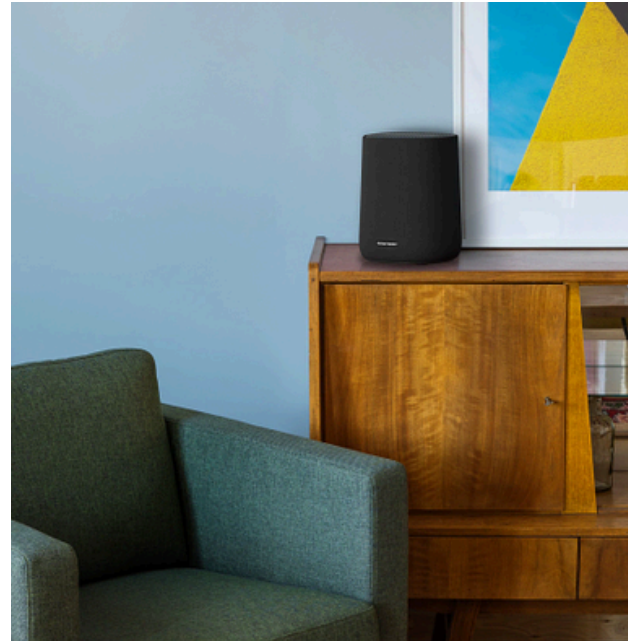

The Enchant 1100 soundbar is designed for larger spaces, while the Enchant 900 fits perfectly in more compact environments. Both feature **Wi-Fi** and can connect wirelessly to the Enchant Speaker and Sub, creating a flexible surround sound solution.

Key features

- 3D surround sound with Dolby Atmos®, DTS:X, and MultiBeam™
- Built-in Bluetooth™ and Wi-Fi with AirPlay, Google Cast™, and Spotify Connect
- Smart dialogue enhancement with Harman PureVoice technology
- Easy sound calibration
- Ultra HD 4K pass-through with Dolby Vision™
- Harman Kardon One app
- Multi-channel surround sound
- Partially made with 100% recycled polyester yarn, 85% recycled plastic frame, and 100% recycled aluminum strip.

Enchant Smart Speaker

The **Enchant smart speaker**, which features an up-firing driver and **Dolby Atmos**, is equally versatile. It can function as a standalone speaker with automatic sound calibration or be paired with soundbars for an immersive surround sound experience.

You can connect, control, and customize it via the **Harman Kardon One app**. This includes setting up a multi-room system if you use different Enchant speakers throughout your home.

Streaming is of course available, and both soundbars and wireless speakers support AirPlay, Chromecast Built-in, Spotify Connect, Tidal Connect, and Bluetooth.

Key features

- Dolby Atmos® music for 3D spatial sound
- Bluetooth™ and Wi-Fi with AirPlay, built-in Chromecast™, and Spotify Connect
- Aesthetic design
- Automatic sound calibration
- Harman Kardon One app
- Partially made with recycled materials
- Multi-channel surround sound

Enchant Wireless Subwoofer

At the same time, the Enchant Sub delivers powerful bass that enhances the overall system performance, while maintaining a minimalist wireless design.

Place the Harman Kardon Enchant Sub on any surface, even on a carpet, and you will continue to enjoy clear, precise, and deep bass. All this is thanks to the newly designed cone-shaped bass reflector, which radiates sound in a perfect 360-degree circle for the smoothest and richest audio experience.

The Harman Kardon One app helps you easily set up the Enchant Sub and personalize the sound settings. You can also use the app to adjust the equalizer and control your other compatible speakers—all in one convenient place.

Key features

- Wireless connection for impressive bass
- Bass reflector design for more accurate bass
- Compact design with elegant detail
- Harman Kardon One app
- Partly made with 100% recycled polyester yarn, 85% recycled plastic, and 50% recycled aluminum on the top panel.

Beyond innovation in sound, the Enchant series stands out for its sustainable design. The soundbars are made from 100% recycled aluminum, while the Enchant speaker uses 80% and the Subwoofer 50% recycled aluminum. The speakers incorporate recycled polyester yarn and at least 85% recycled plastic, while even the packaging is environmentally friendly, made from FSC-certified paper and printed with soy ink.

About WaveMotion S.A.

WaveMotion is a public limited company that imports technology products. It is based in Athens and operates in the fields of smart electronics, high technology, sound, and image. The word WaveMotion brings to mind words such as: sound, light, image, power, speed, and entertainment. Just as waves move constantly and rapidly, so does technology evolve in the fields of sound, image, telecommunications, and information technology. WaveMotion's goal is to provide the Greek market with high-tech products that combine cutting-edge technology with aesthetics and modern design. Today, WaveMotion is the official distributor in the Greek market for the following international brand names, which are leaders in their field: harman/kardon, JBL, Kef, Q Acoustics, Audio Pro, QED, Goldring, rapoo, Native Union, and Livall.

About HARMAN

HARMAN (harman.com) designs and manufactures products and solutions for automotive, consumers and businesses worldwide, including connected car systems, audio and video products, enterprise automation solutions and services that support the Internet of Things. With leading brands such as AKG®, Harman Kardon®, Infinity®, JBL®, Lexicon®, Mark Levinson®, and Revel®, HARMAN is admired by audio enthusiasts, musicians, and entertainment venues around the world. More than 50 million cars on the road today are equipped with HARMAN audio systems. Our software services support and are compatible with billions of mobile devices and systems that are connected, integrated, and secure across all platforms, from home to car to mobile. HARMAN employs approximately 30,000 people throughout the Americas, Europe, and Asia. In March 2017, HARMAN became a subsidiary of Samsung Electronics Co., Ltd.
