- 3. Enter the draw for the most musical 3-day trip to London!

What will you win?

- ▼Two return flights to London
- ✓Accommodation, 2 nights in a double room
- ✓ Meals & transportation
- ✓ Visit to the 1st KEF Music Gallery in central London

KEF Music Gallery London

Experience the ultimate sound experience

KEF's global flagship store is located in the heart of London and pulsates to the rhythm of the city, offering an unparalleled audio experience to its visitors. Covering 5,000 square meters and spread over two floors, KEF Music Gallery London is a unique destination where visitors can discover the magic of great sound.

The store includes the unique and elegant café "The KEFé," "The Gallery," where you can discover all KEF products up close and see them in action at one of the many events organized at the Gallery, and "The Studio," where friends and associates can book the space for recordings.

KEF

From revolutionary Uni-Q technology to wireless speakers such as the LS50 Wireless, KEF's primary goal is to fill our space with music, exactly as it was meant to be heard, without any distortion, and to transport music lovers to unique soundscapes. Both patents and academic studies attest to decades of continuous progress, from the early use of composite materials to the Reference Series, which sets the industry standard to this day. KEF's commitment to excellence is at the heart of a virtuous circle that attracts the world's most talented acoustic engineers to join us in the pursuit of good, better, and best.

MUO Speaker

The portable HiFi speaker that brings authentic KEF sound to every aspect of your life.

Create a true stereo experience. Wirelessly connect two Muo speakers for True Wireless Stereo with separate left and right channels – for incredible sound detail. The battery lasts up to 24 hours, and with just 15 minutes of charging, you get an extra 3 hours of non-stop action! Enjoy crystal-clear, high-resolution audio with a stable connection. Your music always plays in perfect sync, with impressive clarity – wherever you are.

Q CONCERTO META

Metamaterial Absorption Technology (MAT) for precision and clarity of sound, absorbing 99% of unwanted sound, offering a more natural acoustic performance. 12th Generation Uni-Q Driver Array that delivers detailed sound performance, optimizing the advantages of MAT technology. 3-way design with 1 additional speaker driver that handles low frequencies for better sound management.

New Advanced Bass with a design that reduces air turbulence, delivering clearer bass performance. Shadow Flare technology for optimal performance and maximum minimization of unwanted acoustic effects. Even more. Installation options allow you to mount them on stands or on your wall.

Home cinema: now you have surround sound and clear dialogue for the ultimate cinematic experience.

KEF XIO

Not just a soundbar

KEF Xio offers top-quality sound based on KEF's renowned and award-winning technologies. It incorporates advanced acoustic systems for clear dialogue, rich and balanced sound, and dynamic bass. Whether it's music, where every detail is brought to life, or movies, where the sound envelops the viewer and creates a cinematic atmosphere, the experience remains captivating.

It adapts perfectly to your space, whatever the layout. Thanks to Intelligent Placement Technology (IPT), it detects nearby objects and "reads" the acoustics of the environment. Then, the advanced MIE algorithm automatically adjusts the sound so you can enjoy the ultimate experience—rich, balanced, and true to life.

Aesthetics, Desiancontinue this journey of Ours, introducing compellingly and establishing decisively these Brands, in the eyes of our Customers.

About KEF

KEF was founded in 1961 by Raymond Cooke OBE (1925-1995). Headquartered, in those early years, in a Nissen Hut on the premises of Kent Engineering & Foundry in the UK, after more than half a century at the cutting edge of audio the company remains committed to excellence in sound. From ground-breaking Uni-Q® technology to the bar-setting LS50 Wireless, KEF's flair for the unusual - and sometimes controversial - balances an obsession with design in harmony with the most innovative engineering. KEF's reputation for quality is founded on a refusal to compromise on aural authenticity or experience.
