**The new Partybox 720:
Bigger Sound, Bigger Vibes!**

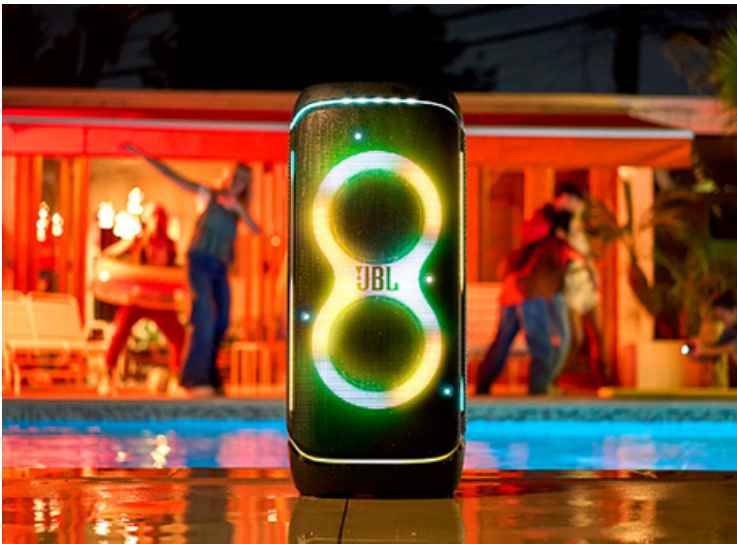

JBL's latest release, the Partybox 720, is here to change the game! Take your party indoors or outdoors with a dynamic new-generation light show, more durable wheels, and an ergonomic handle. Plus, it has an extra battery so you can keep playing music even when you're not plugged in.

Powerful sound with strong bass

Two 9-inch woofers deliver clear and precise bass, even at maximum volume. AI Sound Boost takes it to another level, optimizing performance in real time. Connect the PartyBox 720 to another PartyBox 720 to create stereo sound, or even to any other Auracast™-enabled speaker to create a wall of sound. Every party and celebration is enhanced with a captivating light show. Choose from a range of colors and patterns and match it to your soundtrack for a real show. Create your own party atmosphere with full customization of sound and lighting via the JBL PartyBox app.

Designed for parties, built for endless hours of fun. Will you be hosting the party indoors, in the garden, or both? The PartyBox 720 is IPX4-certified for splash resistance, so you can enjoy endless fun in different conditions! Connectivity options are also comprehensive, offering USB-C and combo jack-XLR inputs, as well as two XLR inputs for microphones, guitars, or DJ consoles.

Key features

- Unbeatable JBL Original Pro Sound
- Up to 15 hours of battery life (extra 2 JBL Battery 600 batteries, sold separately)
- Auracast™ technology
- IPX4 splashproof, dust and water resistant.
- Futuristic Lightshow
- Control the party from the JBL PartyBox app.
- Easy to transport with a handle and durable wheels.
- Connect a microphone, guitar, or DJ console with dual XLR inputs.
- Eco-friendly design with recyclable plastic & FSC packaging.

About WaveMotion S.A.

WaveMotion is a public limited company that imports technology products. It is based in Athens and operates in the fields of smart electronics, high technology, sound, and image. The word WaveMotion brings to mind words such as: sound, light, image, power, speed, and entertainment. Just as waves move constantly and rapidly, so does technology evolve in the fields of sound, image, telecommunications, and information technology. WaveMotion's goal is to provide the Greek market with high-tech products that combine cutting-edge technology with aesthetics and modern design. Today, WaveMotion is the official distributor in the Greek market for the following international brand names, which are leaders in their field: harman/kardon, JBL, Kef, Q Acoustics, Audio Pro, QED, Goldring, rapoo, Native Union, and Livall.

About HARMAN

HARMAN (harman.com) designs and manufactures products and solutions for automotive, consumers and businesses worldwide, including connected car systems, audio and video products, enterprise automation solutions and services that support the Internet of Things. With leading brands such as AKG®, Harman Kardon®, Infinity®, JBL®, Lexicon®, Mark Levinson®, and Revel®, HARMAN is admired by audio enthusiasts, musicians, and entertainment venues around the world. More than 50 million cars on the road today are equipped with HARMAN audio systems. Our software services support and are compatible with billions of mobile devices and systems that are connected, integrated, and secure across all platforms, from home to car to mobile. HARMAN employs approximately 30,000 people throughout the Americas, Europe, and Asia. In March 2017, HARMAN became a subsidiary of Samsung Electronics Co., Ltd.
